## PARADISE POWER SPA VAC

POWER CLEAN SPAS AND POOLS!

The **Power Spa Vac** makes cleaning easy. The body is made from high-impact polymer resin. The aluminum telescopic pole allows the vacuum to be adjusted to lengths that are suitable for different height spas and pools. The DC motor operates on eight AA size batteries (batteries not included).

### FEATURES:

- Easy to operate
- AA battery powered
- Quick removable filter with ultra fine stainless steel screen
- Detachable scrubbing brush
- The telescopic pole is extruded aluminum

### SET-UP

- Remove Handle Cap and carefully slide battery holder out of handle to access batteries. Place batteries into holder - note positive and negative on batteries (negative side of battery toward spring).
- Check Nozzle to see that it is secure. To remove, twist and pull.
- Check Filter, Tube and Check Valve. To remove, twist and pull.

### USING POWER SPA VAC

Push the Power Switch to "ON" and submerge the nozzle into water. Avoid putting the Switch below water (although it is water resistant). After cleaning, remove the filter and clean. For larger cleaning jobs you may need to clean filter before cleaning is completed (suction will be reduced as filter fills up). Replace filter and continue cleaning or store Power Spa Vac for next use.

**POWER CLEAN SPAS AND POOLS!**
